Call for ISP-MDS Implant Dissertation Grant Research Proposals for 2024-25

Dear ISP Life Members,

Greetings.....!!!

We hope that all of you are aware that ISP initiative of supporting MDS implant dissertation grants for the year 2023-24 was a resounding success. We received an overwhelming response and after thorough scrutiny by scientific research committee (SRC) of ISP, a total of 32 MDS 1st year dissertation grants were sanctioned. The total value of ISP implant research grants exceeded Rupees 45 lacs.

We are happy to announce the call for "**ISP-MDS Dissertation Research Grants-2025 (On Dental Implants)**" for MDS 1st year students admitted in current year i.e 2024 .ISP intends to provide research grant support to over 70 dissertations across the country based on their scientific merit. Those of you who are interested in their students applying for the same, are requested to have them aligned for the MDS dissertation topic focused on dental implants.

We will soon share the timelines for the grant application. Meanwhile, the relevant details of the grant application are available on ISP website (<https://ispperio.com>).

For any queries related to research grants, please contact us via email: researchgrants.isp@gmail.com

Best regards,

Ashish Jain

Hon. Secretary
