# WELCOME NOTE

*Greetings from the Conference Organising Committee of 48th National Conference of Indian Society of Periodontology.*

*It is a great pleasure and an honor to extend a warm invitation to attend the 48th National Conference of Indian Society of Periodontology to be held at Kala Academy, Goa from 16th to 18th October, 2024.*

*With a few months to go before the flagship event of the ISP – The 48th National ISP Conference, 2024, the entire organising committee is working harder than ever to bring you an exciting and unforgettable conference. The conference is being organized to promote and facilitate the dissemination of information related to the best clinical practices of Periodontics through a galaxy of acclaimed key note speakers.*

*Goa is a mesmerizing place with its white-sand beaches, active nightlife, places of worship, and World Heritage-listed architecture. Goa is often described as a fusion between Eastern and Western culture with Portuguese culture having a dominant position in the state be it in its architectural, cultural or social settings.*

*Looking forward to welcome you all at GOA!!!!!!*

*Organizing Team*

*48th ISP National Conference, Goa*

# About the Venue

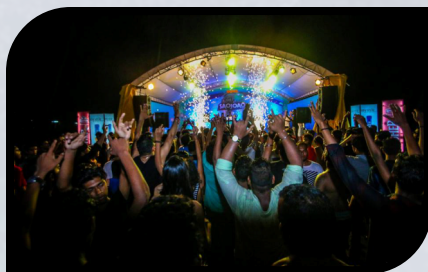

## **Conference Venue:**

*Kala Academy situated at Campal, Panjim, in the heart of Goa is a spacious and beautiful complex and perhaps the most prominent centre for art and culture in Goa today. Built through the collaboration of architect Charles Correa and artist Mario Miranda, the spatial and visual feast that this complex offers is nevertheless often dwarfed by the spectacular music and drama performances that are scheduled here. The academy is also given an additional interest by the realistic illusions done by Mario Miranda on the walls, portraying old-timey windows, doors and staircases along with various people using them. The outer walls of the academy are constructed from red laterite rock, found all over Goa and reminiscent of the great forts that can be found across the state. The rough, unfinished laterite surface creates a pleasant contrast with the smooth concrete surfaces of the columns and pergolas. The murals on the walls, which have been created by world famous cartoonist Mario Miranda are probably a tribute to Konkani Tiatr as a similar art form is used in the creation of set pieces.*

*The Kala Academy offers world class facilities for hosting a national conference and boasts of four world class auditoriums, an open air amphitheatre and an experimental theatre for smaller productions. The air-conditioned auditorium is remarkable for its acoustics, comfortable seating and light arrangements. Situated on the banks of Mandava river, it has plenty of open spaces and walkways. to enjoy the scenic beauty.*

## **Banquet Venue:**

*Bay15 located 6 kms from Panjim City, is a Luxury Getway with a beach frontage that spans 600 running feet well-manicured lawns on the lap of the river Zuari.*
