LABORATORIES**

3rd MID-YEAR CONVENTION

About the Event

**Dear Colleagues,
Season's Greetings !!**

We are very happy to announce that mid term convention organised by IDA M.P state is entering its third year. First two mid term conventions as we learned, turned out to be historical in terms of their success and we also witnessed the scientific standards to be taken to next level in state of M.P.

The popularity of mid term can be measured by its recognition by having an association with Indian Society of Periodontology this year.

The topic of mid term convention is **FULL MOUTH REHABILITATION** with the theme **ACHIEVING FUNCTIONAL HARMONY**. The convention will focus on basics to complications in treatment of full mouth cases emphasizing on periodontal and prosthetic needs.

Traditionally, a complete team of Scientific Masters has been customised for the event. We have staged a platform where a common practitioner can learn and introduce in practice the easy way of complicated full mouth rehabs.

Mark your dates on 19 & 20 July for this, "CAN NOT BE MISSED" event.

Dr. Alok Purohit

President
IDA M.P. State

Dr. Manish Verma

Hon. Secretary
IDA M.P. State

Dr. Vivek Choukse

President
IDA Indore Branch

Dr. Mainak Kanti Saha

Hon. Secretary
IDA Indore Branch

Dr. Ashish Jain

President
Indian Society
Of Periodontology

Dr. Balaji Manohar

Hon. Secretary
Indian Society
Of Periodontology

Maestro Speakers

Padmashri Dr. Mahesh Verma

B.D.S., M.D.S., M.B.A., FAMS, FDSRCS (England), FDSRCPSG (Glasgow), Ph.D. (HC)
At present he is Director-Principal at Maulana Azad Institute of Dental Sciences. Dr. Verma is internationally renowned academician. Presently he is National President of IDA, H.O. He is also President of Indian Academy of Restorative Dentistry (IARD) and Vice President of Dental Council of India. He is an Honorary Advisor of Armed Forces Dental Services, Ministry of Defence and International Advisor of Royal College of Physician & Surgeons of Glasgow (UK). Recently he is

awarded Padmashri for his contribution toward upliftment of Dental Education in India. He is also recipient of prestigious "Dr. B.C. Roy National Award" in 2007 & "Health Care Personality of the Year" for 2012 by FICCI.

Topic : "Contemporary Ethical Dilemmas in Dental Practice"

Abstract : The changing face of dentistry owing to the ingress of hi-technology coupled with the knowledge empowerment of patients have created newer ethical dilemmas in day to day practice. This presentation discusses ethical principles which are critical to our profession and delves into to the contemporary ethical challenges which need to be addressed.

Dr. Ashish Jain

Principal-Cum-Professor, Dr. H.S. Judge Institute of Dental Sciences, Punjab University, Chandigarh. National President, Indian Society of Periodontology. Organized many conferences / seminars. He also get many Honors & Awards. More than 30 publications.

- Post-Doctoral Fellow in Implant Dentistry (Oct'01-Oct'02) Harvard School of Dental Medicine, Harvard University, USA.
- Post-Doctoral Fellow in Periodontology and Oral Biology (May'00-Sep'01)

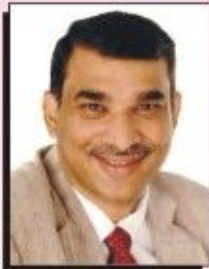

Goldman School of Dental Medicine, Boston University, Boston, USA.

- Masters in Periodontology (1996-1998) Nair Dental College and Hospital, Mumbai, India.

Topic : "Wilkodontics - Orthodontics : At super speed"

Abstract : Conventionally, Orthodontic treatment usually takes years , which is not only a trauma for the patient, but as General Practioners we loose on many patients. 'Periodontally Accelerated Osteogenic orthodontics' (PAOO) is a technique which is revolutionising the ortho treatment World over. With PAOO ortho treatment can be finished in less than 60% of the time otherwise required conventionally. However it is very important to diagnose the right cases. The talk shall focus on the technique, Case selections and the science behind it.

Maestro Speakers

Dr. Mahendra Nath Reddy

Prof. Dr. K. Mahendranath Reddy, M.D.S. 1989 - 1991. Bapuji Dental College and Hospital, Mysore University B.D.S. 1982 - 1987, Govt. Dental College and Hospital, Osmania University Diploma in Laser Dentistry 2011 - Achen University (Germany) & Manipal University (India) combined Programme. He conducted various Scientific programme at National & International level.

Topic : "Fundamentals of Oral Rehabilitation"

Abstract : Tooth tissue loss leads to Stomatognathic dysfunction along with reduced masticatory, leading to aesthetic, social and functional disability. Reconstruction of the lost tooth and associated tissues will need a through knowledge of the Stomatognathic system. Rebuilding the primary mastication should aim at developing harmony with the rest of the stomatognathic system and restore form and function of it. This didactic lecture will deal with fundamentals of stomatognathic system, etiology of tooth tissue loss, effects of tooth loss, and step by step approach of rehabilitating the oral function in harmony with the remaining tissue for consistent, durable results.

Dr. Balaji Manohar

Honorary Secretary, Indian Society of Periodontology, Prof. & Head, Dept. of Periodontics, Pacific Dental College & Hospital Debari, Udaipur. Education and Training.

He is B.D.S., M.D.S. (Periodontics) from A. B. Shetty Memorial Institute of Dental Sciences, Mangalore. PGDHHM – 2010, Symbiosis, Pune. Pursuing Ph.D. at Pacific Academy of Higher Education and Research. He has got various publications to his credit. Actively involved in organising various conferences. Holding various offices in IDA also.

Topic – "Periodontal Consideration For Full Mouth Rehabilitation"

Abstract : Periodontics- is the hub of dentistry.

Thinking of it, no procedure in dentistry is complete without the involvement of the periodontium. Still, it is the most neglected specialty; not only from the patients point of view but even by the practicing dentist. A complete rehabilitation of the patient is not possible without the total care of the periodontium. A dentist can take small but important steps to improve the periodontal status which will improve the overall condition of the patient's dentition. Many small or minor periodontal procedure can be done by the general dental surgeon and improve the overall condition of the patient and help patient retain the natural teeth for a long period of time. This will improve the patient confidence and in-turn improve the practice of the dentist.

Dr. Ravindra Savadi

- He completed his MDS from GDC Bangalore in 1994 and has been teaching prosthodontics since then.
- He is a Professor of Prosthodontics and a recognised Ph.D. guide at the Rajiv Gandhi University of Health Sciences. He has currently taken a sabbatical from teaching.
- He has been active in Various professional bodies including IDA, ISOI, ISPRP and of course, IPS.

Topic : "Role of Implants in Full Mouth Rehabilitation"

Abstract : A fully edentulous mouth has been conventionally treated in India with removable complete dentures. Though this is socio-economically relevant for our country, other treatment modalities must be considered before settling for the conventional dentures. Retention, Stability and Support for the denture has led us to explore new avenues. Implant dentistry has now spread itself aggressively, suiting almost all pockets. Implants are used now to support a conventional denture to a hybrid prosthesis. This lecture aims to discuss the various treatment modalities for developing a full mouth rehab with the help of Dental implants.

**Dr. Rajesh Sethuraman**

- B.D.S. (2000) GDC, Mumbai (Gold Medal).
- M.D.S.(2004), D.N.B.(2005) Prosthodontics.

Presently he is a Professor at Dept of Prosthodontics, K M Shah Dental College and Hospital, Piparia, Vadodara, with experience of Teaching for last nine years.

Over twenty publications in national and international journals with many presentations. Also got many awards. Conducted various pre-conference & pre-conventional courses on Full Mouth Rehabilitation.

Topic : "Diagnosis And Treatment Planning for Full Mouth Rehabilitation"

Abstract : The ability to change lives through comprehensive care is truly a wonderful part of dentistry. But along with the advantage to the patient, there is a challenge to the providers to understand and address the chief concerns and desires of the patient, as well as to understand all the medical and dental implications related to treatment. Rehabilitation of the complete arch or of the full mouth is often one of the challenges faced by a dentist. In fact aesthetic and functional restoration of the worn out dentition involves a prudent diagnosis, development of sufficient restorative space and programming of a physiologically acceptable functional occlusion.

**Dr. Ravi Kiran**

Reader, Dept. of Periodontics, Pacific Dental College & Hospital, Udaipur.

- Seven Years of Post Graduate Teaching experience.
- Did his Graduation & Post-Graduation from VS Dental College, Bangalore.
- Had given guest lectures in IDA Belgaum and Ajmer.

Topic : Pink Aesthetics & Importance Of Zenith Points.

Abstract : The search of beauty can be traced to the earliest civilizations. Dental art has been part of this quest to enhance the esthetics of the teeth and mouth. The anatomy of smile is an integral part of dentistry, involving close scrutiny of all elements of the oral region. Such an ideal smile depends on the symmetry and balance of the facial and dental features. The lips form the frame of smile and define the esthetic zone. Its position during smiling determines the amount of gingival display. One significant feature of gingival morphology is the gingival line, which is defined as the line joining the tangents of the gingival zeniths of the central incisor and canine. Directly related to the aesthetics of the smile is the position of the gingival zenith.

Using a comprehensive approach in diagnosing and treatment planning of the esthetic cases can help achieve the smile that best enhances the overall facial appearance of the patient, and provides additional benefit of enhanced oral health.

3rd MID-YEAR CONVENTION

Schedule

Saturday, 19th July 2014

08.30 am	-	09.30 am	Registration & Breakfast
09.30 am	-	11.30 am	Lecture by Dr. Balaji Manohar - "Periodontal Considerations for Full Mouth Rehabilitation"
11.30 am	-	11.45 am	Tea Break
11.45 am	-	12.45 pm	Lecture by Dr. Ravi Kiran - "Pink Esthetics and Zenith Points "
12.45 pm	-	01.30 pm	Lunch
01.30 pm	-	03.00 pm	Lecture by Dr. Rajesh Sethuraman - "Diagnosis and Treatment Planning for Full Mouth Rehabilitation"
03.00 pm	-	03.15 pm	Tea Break
03.15 pm	-	05.00 pm	Lecture by Dr. Ashish Jain - "Wilkodonitcs"
07.30 pm onwards			Dinner with Rock Band & Musical Cultural Programme

Sunday, 20th July 2014

08.30 am	-	09.30 am	Breakfast
09.30 am	-	11.30 am	Lecture by Dr. Mahendra Nath Reddy - "Fundamentals of Oral Rehabilitation" & Live Demonstration on "Occlusal Assessment & Adjustment"
11.30 am	-	12.15 pm	Inauguration Ceremony and Felicitation of Padmashree Dr. Mahesh Verma (President , IDA H.O.)
12.15 pm	-	01.15 pm	Lecture by Dr. Mahesh Verma - "Contemporary Ethical Dilemmas in Dental Practice"
01.15 pm	-	02.00 pm	Lunch
02.00 pm	-	04.00 pm	Lecture by Dr. Ravindra C. Savadi - "Role of Implants in Full Mouth Rehabilitation"
04.00 pm	-	05.30 pm	Lecture by Dr. Rajesh Sethuraman - "Management of Worn out Dentition"

*Organising Committee reserves right to amend any change in Programme Schedule

Registration Details

REGISTRATION CHARGES

For Lectures Only	Till 17th July	Spot Registration
For IDA Members	₹ 3250/-	₹ 3500/-
For IDA Students Members	₹ 3000/-	₹ 3200/-
For Non IDA Members	₹ 6000/-	₹ 7000/-

WITH FREE LIVE DEMONSTRATION

All delegates are requested to collect their food coupons from the registration counter on 19th July morning between 8.30 - 9.30 am.

Cheque / D.D. payable in favour of "IDA MP Branch", payable at Indore.
